Hampton reviews storm damage

Friday, June 14, 2013 - City assessment teams were out Friday morning to identify damage caused by the fast-moving storm that swept across the area early Thursday evening, according to the city's Emergency Management Office.

In addition, Dominion Power had crews in the city working to restore power to areas along Queen Street, North King Street and other neighborhoods without service.

At least two houses were reported damaged by the storm and the city's 3-1-1 Customer Call Center received more than 20 service requests for downed trees.

The forecast for today calls for a chance of showers and storms after noon, with a high near 75 and winds 15-20 mph.

Hampton residents can report a problem or get information about city services by dialing the Call Center at 3-1-1 or 757-727-8311.
